COMBI 200

Ready for a new generation

Cut everything from A to Z.

From the stand the perfect cut.

From now on set new standards in the field of sawing with the Combi 200

The Combi 200 is ready when you are.

Discover a new dimension of band saws.

A dimension full of breathtaking possibilities and new ways,

We want to share our experiences and innovations with you.

A new era starts and you can be part of it right from the start.

We listened to you and are gone a brave step forward with the Combi 200.

We adapted shape and function even more closely
and technologies, which you will not want to miss soon

Combi 200

The Combi 200 is the band saw that speaks your language.

Straightforward and straight to the point.

That is why we have made the Combi 200 as safe as possible,

The material presser is not removable - so almost every employee can work with the Combi 200.

However, please advise your employee and show him the dangers associated with working on a band saw.

The Combi 200 and mobile undercarriage.

Fits perfectly into your working environment.

This is what we mean by offering you an undercarriage as an option.

This creates flexibility. You can use the machine where you need it.

The bench with the 2 stainless steel castor and the 2 stainless steel steering castors with brake makes the Combo 200 to a real jack-of-all-trades.

If you only think about cleaning the machine, you will recognize the advantages.

Go for it.

The description and the technical data:

Combi 200

- "CE"-certified and "GS"-approved
(complies with European hygiene and safety regulations.)
- According the EEC Safety regulations
- Motor stops automatically when opening
the doors or covers.
